

Nothing Left to Say

[Ian Van Dahl](#)

I can't change the way we live today.
It's just a matter of acceptance anyway.
I can't change the pain we have to face.
All our worries in time will fade away. In time will fade away [4x] I can't change how people think today.
Maybe it's better, there's nothing left to say.
I don't care how people think today.
Maybe it's better, there's nothing left to say. There's nothing left to say [2x] I don't care about the way we live
today.
I'm just a part of the game we have to play.
I don't care what people have to say.
All our worries in time will fade away. I can't change how people think today.
Maybe it's better, there's nothing left to say.
I don't care how people think today.
Maybe it's better, there's nothing left to say. There's nothing left to say [4x]
