

# Slowly Turning

Endo

SLOWLY TURNINGSo you say the sun  
Always fades for you  
I can pray for love  
Then betray what's true  
You know where I'm going  
So you say that you know  
In a world unknowing  
So afraid that you're lost  
We're slowly turningInto nothing  
We're slowly turning  
We're so cold  
So cold  
We're so coldI will take this time  
Integrate my mind  
To exist into  
So you say that you know  
And have faith for you  
So afraid that you're lost  
You know where I'm going  
We're slowly turning  
In a world that's turningInto nothing  
We're so cold  
We're slowly turning  
So coldWe're so cold  
In my head  
We're slowly turning  
It's in my head  
Into nothingWe're slowly turning  
So cold  
We're so cold  
We're so cold
