Don't Just Stand There (Instrumental)

Approaching Nirvana

I work so hard
In my life
To get it right
Know when to fightI can't believe
What you've done
You were never the one
To say anything or do anything for meI can't save much
More than my life
I'm not even
Sure I'd tryDon't just stand there
Don't just stand thereDon't just stand there
Don't just stand thereYou wanted something more
Maybe to settle the score
I don't care anymore
You're like a mystery that I could never feedI work so hard
In my life
To get it right
Know when to fightI can't save much
More than my life
I'm not sure
I'd even tryDon't just stand there
Don't just stand there
