

# Back in Blood

## The 69 Eyes

Hahahaha Two thousand years ..... Back in blood I've been so lonely lonely without you  
Two thousand years feeling nothing but blue  
Wake me take me let me put my spell on you  
Dreamtime eternal the waiting is through Like Romeo & Juliet  
We're undead Back in blood  
Blood is the new black You kept me waiting waiting here for you  
Two thousand years baby what you gonna do  
Wake me take me let me share this curse with you  
Moonlight eternal the waiting is through Like Romeo & Juliet  
We're undead Back in blood  
Blood is the new black
