Shakes

Ishyua

you better take it on your own babe you just can
all the time babe you just donÂ´t care she said
different troubles and you want to be heard
different natures that you want to understand

so letÂ´s rock all night long
until the break of dawn you better move it now shakinÂ´ all this world

you better get it on the way babe you just can
all the night movinÂ´your ass she said
different problems and you want to be heard
different natures that you want to understand

so letÂ´s rock all night long
until the break of dawn you better move it now shakinÂ´all this world

so letÂ´s rock all night long
until the break of dawn you better move it now shakinÂ´all this world
love is a way she knows full about it
love is celebrate you can be satisfied rockinÂ´all this fuckinÂ´ world tonight
