Predators

Iron Savior

[Hey you shadow bastards! We'll blow your asses out of space and time! Understand?]They came to take our land and lifes
To terminate our race
All across the galaxy
They leave a deadly traceEmerged from Hell - an evil spell
The universe is cursed
They came to please and satisfy
Their everlasting thirstWe will stand
Together til the end
Into the fire we will ridePredators - on the hunt for prey
Predators - come to make our dayYou gonna payWe warn you now
You things up there
It's time to understand
We'll blow you into nothingness
Whatever you may sendWe will stand...Predators - on the hunt for prey...[Solo Piesel]Onto the battlefield
Onto the firing line
We gonna blow your asses
Out of space and time
Yeah!Predators - on the hunt for prey...You gonna pay - some day
