Something to Remember Me By

Alice Cooper

Baby....I wanna tell you somethin'
Just a word and it's no lie
I got so much...
Feelin' inside of meBaby...Our love will last forever
Through the changes of the heart
Through the lonely nights...
Whenever we're far apartBefore we say goodbye...
All I wanna say is II just wanna give you something
To remember me by
Something that lasts forever
'Cause our love is for all timeBaby...I may be gone tomorrow
But I'm here with you tonight
I'll be holding you
Till mornin' lightAnd baby...I'm gonna watch you wake up
Scattered clothes across the floor
And hear you whisper to me
Love me again once more...Before we say goodbye...
All I wanna say is I...I just wanna give you something
To remember me by
I won't be gone forever
And our love is for all time
I wanna give you something
To remember me bySomething to remember
Further on down the line
Something to remember
Me... by...
Bye... Bye...
