Open the Door (feat. Robin)

David Moore

The Lord is knocking at the door
knocking at the door to your heart
open up and let him in, let him wash
away your sins He just wants to love you - Yeah
love you, love and care for you
So, if you want to serve the Lord, there's one thing to do
open the door
And come in from the cold, come inside where it is safe and
warm He paid the ultimate price so we would have eternal life
Go ahead and make the choice, the choice to listen to His voice
And if you want to serve the Lord, there's one thing to do
open the door
It's not so hard to understand all we have to do is follow
God's plan and let Him in your heart - Yes there's one thing to do
open the door
If you want to serve the Lord, open the door
Open the door
