

It's All Yours

Overkill

Oh no there's another one think he's gonna run away
Oh yeah not to be outdone on a cold independence day
Come on now will you give me the time
It's a kingpin move of a victimless crime
With the list in blood what we do achieve
Like a black coat preacher screams I do believeRunnin' like a freight train on an iron rail
Runaway freight train with your bill of saleIt's all yours to keep don't give it away
It's all yours to burn don't give it away
Own it when you sleep don't give it away
It's all yours to burnOh yeah there's the target son with a bull's eye on his heart
Yeah yeah get to hunting one adrenaline is off the chart
Here we go with our limited time
As the siren sounds hear the bells chime
There's a list in blood and shoulders pinned
The black coat preacher screams oh lord I've sinnedRunnin' like a freight train on an iron rail
Runaway freight train with your bill of saleIt's all yours to keep don't give it away
It's all yours to burn don't give it away
Own it when you sleep don't give it away
It's all yours to burnThey try and end my life everywhere I turn
But least and not forgetful
I own it when it burns own it when it burnsOne more for the movement as we march into the turns
And one more for improvement
So we can own it when it burnsOh no there he goes again think he's gonna get away
Oh yeah one more amen on a dead independence day
Come on now will you give me the time
It's a kingpin move of a victim filled crime
With the list in blood what we do achieve
Like a black coat preacher screams I do believeRunnin' like a freight train on an iron rail
Runaway freight train with your bill of saleIt's all yours to keep don't give it away
It's all yours to burn don't give it away
Own it when you sleep don't give it away
It's all yours to burn don't give it away
It's all yours to keep don't give it away
It's all yours to burn don't give it away
Own it when you sleep don't give it away
It's all yours to burn
