Poolside

One Life Crew

Dreamlife, outcries, standby, allies
Poolside, childlike, downside, goodbyes
Sympathetic tones don't match a sympathetic lie, so darling
Don't leave me, fix me
You're my entrance
I'm just looking for an exit from my
Real life
Meantime
Is my saving grace
While I'm just looking for your face amongst the
Deadbeats, back streets, stories, tell me
Child brides, pigsties, thick ties, unwise
Don't just hold each other back, I'm dearing up my path, so darling
Don't leave
Fix me
You're my only entrance
I'm just looking for an exit from my
Real life, meantime
Is my saving grace
While I'm just looking for your face inside the crowd
I'm so sorry, I apologize in advance
We were never friends, I didn't mean to hurt you yet again
I don't mean my cruelty
It's just the poetry you were looking for...
So darling
Don't leave
Save me
You're my only exit
I'm just looking for an entrance
To my real life, mean time
It's my saving grace
While I'm just looking for your face inside the crowd
