Godsend

BeowÃ¼lf

Hoping, praying, I've been waiting
Everybody needs somebody to love
There's no question, straight from heaven
You're my angel, I'm so crazy for youYou're a Godsend
A blessing from above
You've been God sent to me
You're the Godsend I've been dreaming of
You're a GodsendHolding your hand, touching your face
I will love you now and always I swear
I will never forget that first moment we met
When two worlds collided and I found my best friendYou're a Godsend
A blessing from above
You've been God sent to me
You're the Godsend I've been dreaming of
You're a GodsendI was made for you, you were made for me
In this lonely world, we were meant to be in loveI will never forget that first moment we met
When two worlds, they crashed in
And I found my best friendYou're a Godsend
A blessing from above
You've been God sent to me
You're the Godsend I've been dreaming of
You're a Godsend
