

# Godsend

## BeowÃ½lf

Hoping, praying, I've been waiting  
Everybody needs somebody to love  
There's no question, straight from heaven  
You're my angel, I'm so crazy for you  
You're a Godsend  
A blessing from above  
You've been God sent to me  
You're the Godsend I've been dreaming of  
You're a Godsend  
Holding your hand, touching your face  
I will love you now and always I swear  
I will never forget that first moment we met  
When two worlds collided and I found my best friend  
You're a Godsend  
A blessing from above  
You've been God sent to me  
You're the Godsend I've been dreaming of  
You're a Godsend  
I was made for you, you were made for me  
In this lonely world, we were meant to be in love  
I will never forget that first moment we met  
When two worlds, they crashed in  
And I found my best friend  
You're a Godsend  
A blessing from above  
You've been God sent to me  
You're the Godsend I've been dreaming of  
You're a Godsend
