Slack

Fireside

Patiently devoted to
The words I havent spoken
But have heard a thousand times
And never cared aboutLived above the closely sandy winter
Thats been decided without me
In the past timeDecisions have been made
Decisions have been
Have been made without me
Have been madeThrough the eastern wall
The sun shine in and hit my face
I fell down dead and was never woken up againThe limitation wasnt there to my surprise
Then they told me the decision's
Have already been madeDecisions have been made
Decisions have beenPatiently devoted to the words I havent spoken
And never cared about
Its been decided without
My presence in the past time
