

# Numb

## Starflyer 59

Do you suppose  
The path of your life is chose?  
That more of it's gone than coming  
But you still feel the same?  
Or do you suppose  
Your life is in comatose?  
With more staying than leaving  
And nothing will change  
Was it really better back then  
Were there really less problems?  
Or was it really that because then  
You weren't so numb?  
It's no good to be numb  
Can you control  
When good times will come or go?  
If more are gone than coming  
No one can say  
Sometimes I feel  
My life is like a contest  
With nothing left to conquest  
And nothing left to say  
Was it really better back then  
Were there really less problems?  
Or was it really that because then  
You weren't so numb?  
It's no good to be numb  
Was it really better back then  
Were there really less problems?  
Or was it really that because then  
You weren't so numb?  
Was it really better back then  
Were there really less problems?  
Or was it really that because then  
You weren't so numb?  
Or was it really that because then  
You weren't so numb?  
It's no good to be numb  
It's no good to be numb  
It's no good to be numb  
It's no good to be numb
