

Untied

Pete.

Hey you, out there
You laugh and say you care
But you won't set me free Just take what you see
Divide and multiply by three
Into me is my one Maybe I'll try and find
A stain inside of you
Hey, I'm dead inside
I know it makes you Why did I come untied?
I came untied
Yeah, I'm dead inside
I know it makes you, too
I know it makes you, too Here in my room, I'm alone
It's a home away from home
I'm stoned, can't you tell? Hey you, out there
You kill me till I'm well
But you won't set me free Maybe I'll try and find
A stain inside of you
Hey, I'm dead inside
I know it makes you Why did I come untied?
I came untied
Yeah, I'm dead inside
I know that it makes you, too
I know it makes you, too Don't lie to me
I know how to read your face
Your sympathy
Is what you came to find Don't lie to me
It's how you live without
Your sympathy
Your sympathy Maybe I'll try and find
A stain inside of you
Hey, I'm dead inside
I know it makes you Maybe I'll try and find
The purest side of you
Yeah, I'm dead inside
I'm dead inside Why did I come untied
I came untied
Maybe I'm dead inside
I know that it makes you, too I know it makes you
I know it makes you

I know it makes you
I know it makes you I know it makes you
I know it makes you
I know it makes you
I know it makes you
I know it makes you
