

Take It, Shake It, Break My Heart

Vanity Fare

Beg me hard to love you and a moment of my weakness
Now you want my love you say it's time for leavin'
Take it, shake it, break my heart
Think it's almost time to get used to it
Take it, break it wide apart
You're not the first, you won't be the last
Funny but it's true, happens almost every time
Tell myself beware not to lose control next time
Just when I'm unguarded, some girl takes me by surprise
Steals my heart and leaves me, it's the story of my life
Take it, shake it, break my heart
Think it's almost time to get used to it
Take it, break it wide apart
You're not the first, you won't be the last
Woo-oooh
Take it, shake it, break my heart
Think it's almost time to get used to it
Take it, break it wide apart
You're not the first, you won't be the last
Take it, shake it, break my heart
Think it's almost time to get used to it
Take it, break it wide apart
You're not the first, you won't be the last
Take it, shake it, break my heart
Think it's almost time to get used to it
Take it, break it wide apart
You're not the first, you won't be the last
