

Hunger Pain

[Radkey](#)

What the Children sell your body takes

Would like to?

they'd Make you trip, you try just one

to see just how it taste

Give it three, on the tounge

the only thing to pass the time

guilty conscious ways a ton

on the inside, been too long.

well be my weakness please don't run

give me these feelings, I have none.

oooooooooooh

We don't needs this you and I

nooooooooooooo

stand with me here by my side

when you came my way

all year long you knew from the start

lady for my heart

made me feel it tore me apart

lady for my love

a guy like me so scary and dark

and when you fade away

all the pain starts sneaking out

well be my weakness please don't run

give me these feelings, I have none

oooooooooooh

We don't need this you and I

nooooooooooooo

Stay with me here by my side

Well look at me and what I've done

stare at your tears, I'll hide and run

oooooooooooh

Could it be just you and I

nooooooooooooo

I'll just bleed until I die
