LETâ€™S STAY HOME TONIGHT

NEEDTOBREATHE

Baby, let's stay home tonight
We can put a couple records on
We can build a fire alright
Maybe we can dance till dawn
Everything will be just fine
Don't even have to put clothes on
I can keep you warm inside
Baby, let's stay home tonightLately we've been walking in a straight line
Doing our own thing never seem to find time
We've been going downtown
Making reservations
But maybe we just slow down
See where it can take usBaby, let's stay home tonight
We can put a couple records on
We can build a fire alright
Maybe we can dance till dawn
Everything will be just fine
Don't even have to put clothes on
I can keep you warm inside
Baby, let's stay home tonightI know you wanna get dressed up
But I know who you are girl
There ain't no need for makeup
'Cause you're my angel
And I don't wanna share you
So why don't we just slow down
See where it can take usBaby, let's stay home tonight
We can put a couple records on
We can build a fire alright
Maybe we can dance till dawn
Everything will be just fine
Don't even have to put clothes on
I can keep you warm inside
Baby, let's stay home tonightBaby, let's stay home tonight
We can put a couple records on
We can build a fire alright
Maybe we can dance till dawn
Everything will be just fine
Don't even have to put clothes on
I can keep you warm inside

Baby, let's stay home tonightYeah baby, let's stay home tonight
