At the Party

Northern State

I went to the party
(It's never what it seems)
I went to the party
(You know what I mean?)
I want to the party
(Just me, a lonely MC)
You can pop the cork, said you can twist the cap
I'm at this party and I'm here to rapI went to the party, but I couldn't get in
I asked the bouncer if he knew my girl Hesta Prynn
He said, "I know that girl, are you in that band?"
I said, "I think I'm on the list, could you stamp my hand?"He said, "Step inside girl, you look alright
Hold up, do you satisfy the minimum height?
You gotta be this tall to ride tonight"
I said, "I might be short, but I can still party
I can shake it on the floor like Melissa Alardi"I went to the party, but I'll never go back, yo
The speakers were shitty and the jams were whack
This girl at the bar said, "Northern who?"
I said, "It's Northern State, haven't you heard of my crew?"Yo we rock the stage anyway we want
Hell I'll rock this party like a debutante
River dale's too Kiwanis, true party people want us, yo
Keep it real, I gotta break the sealClose my eyes as I leave the house
(Close my eyes and I)
And then I'm at the party and I'm fillin' out
(I'm at the party and I)
And then I'm watchin' my worries as they floatin' by
(Watch all my worries just)
It's just, there they go, slippin' away now
(Slip away)It's alright if you're feelin' bad
(It's alright and I)
And then you're at the party and you feel so glad
(I'm at the party and I)
And you wanna know if it's time to work or play
(Just don't know if)
It's just, should I go or should I stay now?
(I should go or stay)Yo, I called you
Yo, I didn't get it
I didn't hear my cell
Didn't ring, so don't sweat itI went to the party
(It's never what it seems)

I went to the party
(You know what I mean?)
I want to the party
(Just me, a lonely MC)
You can pop the cork, said you can twist the cap
I'm at this party and I'm here to rapI went to the party, a lonely MC
All the way from Avenue D
Lookin' for Katie Cassidy
I noticed this guy was starin' at meHe said, "Hi", I said, "Hi, do I know you?"
He said, "Yeah, don't you run in that girl rap group?"
Uh huh ho, you're the one with that liberal arts
Academic, literary kinda name, right?I said, "Like Gorgeous George, my name is Hideous Hesta
Rhyme with pizazz, and I am the masta
Shout out to Cynthia plasta casta
Speed up the tempo and I'll go faster"You wanna know what it's about?
I like to party but I never go out
Mailin' and I'm maxin', callin' and I'm faxin'
I need some more relaxin', 'cause my job is real taxin'I got the perfect party in my mind
Y'all out on the floor, relax and unwind
And the people at the party be the NSP
No drama at the door and the drinks are freeClose my eyes as I leave the house
(Close my eyes and I)
And then I'm at the party and I'm fillin' out
(I'm at the party and I)
And then I'm watchin' my worries as they floatin' by
(Watch all my worries just)
It's just, there they go, slippin' away now
(Slip away)It's alright if you're feelin bad
(It's alright and I)
And then you're at the party and you feel so glad
(I'm at the party and I)
And you wanna know if it's time to work or play
(Just don't know if)
It's just, should I go or should I stay now?
(I should go or stay)Yo, ya know it
Yo, like Dolly said it
Workin' nine to five'll
make you crazy if you let it!I went to the party
(It's never what it seems)
I went to the party
(You know what I mean?)
I want to the party
(Just me, a lonely MC)
You can pop the cork, and you can twist the cap
I'm at this party and I'm here to rap
