

# Say You Will

## Brandy

I never met a guy so sweet  
Someone who knocks me off my feet  
I never knew that it could be  
Until I met you baby  
You never met a girl like me  
I only wanna make you happy  
I never knew that I could be free  
Until I met you baby All I wanna do likely all that I wanna do is  
Is spend all my time with you  
Every second, every minute, every hour  
I can't let you get away, can't go nowhere  
I need your loving everyday  
Oh yes I do Say you could feel, feel the way I feel for you  
Say you will do the things you promised to  
Say you love me the way that I love you  
Say you will, say you will Oh, oh, yes  
Never knew a love like you  
To do the things that you do  
You never seem to lose your touch  
That's why I love you baby  
I travel around the whole wide world  
And I say that I'm your girl  
Never had these feelings  
Until I met you baby All I wanna do lately all that I wanna do  
Is spend all my time with you  
Every second, every minute, every hour  
I can't let you get away, I ain't gon' let you go, no  
I need your loving everyday Say you could feel the way I feel for you  
Say you will do the things you promised to  
Say you love me the way that I love you  
Say you will, say you will Baby all I wanna do is spend all my life with you  
Have three four kids like you  
And have some more if you want me to  
I can give up everything  
So now it's time to give me that ring  
So baby say what you feel about me Say you could feel the way I feel for you  
Say you will do the things you promised to  
Say you love me the way that I love you  
Say you will, say you will
