

Dream Girl

Basshunter

(You're my dream)

Baby, I'm your dream girl My spell, your toy, I'm your dream girl

The way I walk, the way I look

Baby, I'm your dream girl When I'm dreaming I'm alone with you

Lying in my lonely bed

Oh, the times you held me in your arms

And all our fantasies we shared No one's touch my body like you do

Not in that special way

'Cause I've found your love

And it feels so right so don't let me go Baby, I'm your dream girl I'm like your world, I'm your dream girl

Believe me, baby, it's true

I wanna be with you The way I walk, the way I look

Hands all over me

Baby, I'm your dream girl I'm like your world, I'm your dream girl

Believe me baby it's true

I wanna be with you The way I walk, the way I look

Hands all over me

Baby, I'm your dream girl When you hold me in your arms

You made me feel so safe

Everyone told me to walk away

But don't you say why I stay No one's touch my body like you do

Not in that special way

'Cause I've found your love

And it feels so right so don't let me go I'm like your world, I'm your dream girl

Believe me baby it's true

I wanna be with you The way I walk, the way I look

Hands all over me

Baby, I'm your dream girl I'm like your world, I'm your dream girl

Believe me baby it's true

I wanna be with you The way I walk, the way I look

Hands all over me

Baby, I'm your dream girl Baby, I'm your dream girl

Baby, I'm your dream girl

My spell, your toy, I'm your dream girl

Baby, I'm your dream girl

(You're my dream)
