## Fear Factory

What you feel  
Are your needs  
All you want  
Is to be loved

Pain!  
Love!  
Pain!

But you can give  
Someone else  
The same love  
That you want

Pain!  
Love!  
Pain!  
Pain!  
Love!  
Pain!

Come and take my pain  
And soon you will see  
That I will taste your pain  
Then both of us can bleed

I loved you once  
Now go away  
I loved you once  
Please stay away

Your emotions  
Are out of control  
A battered soul  
Your love means shit

Pain!  
Love!  
Pain!  
Pain!

Love!

Pain!

Come and take my pain  
And soon you will see  
That I will taste your pain  
Then both of us can bleed

I loved you once  
Now go away  
I loved you once  
Please stay away

I loved you once  
Now go away  
I loved you once  
Please stay away
