Revolution

Big Mountain

Unity, Unity
Revolution is healing up the nation
Revolution is healing up the nation
Fight back your sorrows
Don't let your depression get you down
We've got a bright and blue tomorrow
So keep your faith planted firmly on the ground
New time for action
Find yourself some energy
My brothers and sisters
We've got to heal together
Or the infection can only increase
Revolution is healing up the nation

Revolution is healing up the nation
Revolution is healing up the nation
If you're searchin' for reason
Lookin' for balance in Babylon
Don't think this system will heal your sufferation
Let them squander their budget money
We've got to ready the youth
To jump a ship in a stormy seas
Revolution is healing up the nation
Revolution is healing up the nation
Revolution is healing up the nation
