

You Gotta Love Someone

Elton John

You can win the fight, you can grab a piece of the sky

You can break the rules but before you try

You gotta love someone

You gotta love someone You can stop the world, steal the face from the moon

You can beat the clock, but before high noon

You gotta love someone

You gotta love someone You've got one life with a reason

You need two hearts on one side

When you stand alone and there's no one there

To share the way it feels inside and baby You can cheat the devil and slice a piece of the sun

Burn up the highway but before you run

You gotta love someone

You gotta love someone When you're gonna play with fire

You let someone share the heat

When you're on your own and there's no one there

To cool the flames beneath your feet and baby You can win the fight, you can grab a piece of the sky

You can break the rules but before you try

You gotta love someone

You gotta love someone You gotta love someone

You gotta love someone
