Build It Better

Aron Wright

You can still see where the water was
In a line at the top of the chimney bricks
Sometimes, something so broken can never be fixed
So we saved a few things that were spared
And brought it to the ground
Cause you always build it better the second time aroundI drove past the place where we used to live
Where you said you never wanted kids
Sometimes, something so broken can never be fixed
I'm sleeping more and eating again
I'm starting over like a factory town
And you always build it better the second time around
You always build it better the second time around
You always build it better the second time around
You always build it better
You always build it better
You always build it better the second time around
You always build it better the second time around
You always build it better the second time around
You always build it better the second time around
