

# On the Ocean

K'Jon

Man, the moment i been waiting on, and my soul is over flowing with anxieties and expectations full of desires, i just want it so bad you know and it just seem so real its right there just want to reach out and touch it before it all disappears

sometimes it feels like everything is passin me by  
every now and then it feels like {feels like}  
my ship has gone and sailed away  
but I, i gotta be strong {gotta be strong} gotta hold on  
it wont be too long

chorus: now the tide is coming near i see the waves flowin  
out there on the ocean i know my ship is coming in  
just past the horizon and right where the sky ends  
cause out there on the ocean i know my ship is coming in  
so dont leave me hanging i been waitin too long  
for this moment my ship has finally come

i would travel to the seven seas  
i would even go wherever the wind blows me  
ill do anything to find my destiny  
its like fightin with gravity and its bringin me down  
if this world was really round then tell me how  
it took so long for you to come around

chorus: now the tide is coming near i see the waves flowin  
out there on the ocean i know my ship is coming in  
just past the horizon and right where the sky ends  
cause out there on the ocean i know my ship is coming in  
so dont leave me hanging i been waitin too long  
for this moment my ship has finally come

finally you come {around} around around  
i said finally baby finally you come around around  
finally you come around come around baby  
said finally you've come around

chorus: now the tide is coming near i see the waves flowin  
out there on the ocean i know my ship is coming in  
just past the horizon and right where the sky ends  
cause out there on the ocean i know I know I know I know I know I know

it's coming in been waiting too long for this moment my ship has finally come
