

# Come On Now

## Kitchens of Distinction

I think it's time to wake my friend  
Invisible men with the forever grin  
We do wrong but we do it together

He stops me of thinking of people to murderI must keep it together

I hate to compromise

But when the felons are out feloning

He is a place to hideAnd his laugh, it gets me through

Those troubled hours of men in suits

And his face, it gets a smile

Erases their skyscraper lies

I take him out to save my skin

When I can't last the evening

Dresses my lips with angel kiss

Under lemon moons and ice-cube licksI must keep it together

I hate to compromise

But when the felons are out feloning

He is a place to hideAnd his laugh...Come on now, come on now, we can beat the storm

For your face a sacrifice

For your grace, a higher life

In the cave behind your eyes

Where we can climb and we light firesWe'll light fires
