

Be the Revival

Brandon Jenkins

In this life
We all learn faith
In different ways
To make it thru
We all feel pain
We all have hurt
So whatever works
For you
Lift your eyes & see thru the sorrow
Muster all the strength you can borrow
And live for tomorrow
Though you're down & out to your rival
Know your faith is linked to your survival
And be the revival
Just be the revival
There's only so much time on this earth
To do our work, before our race is run
We all make mistakes
It's the plight of man
We're so much better than
The worst deeds we've done
That's the truth
Lift your eyes & see thru the sorrow
Muster all the strength you can borrow
And live for tomorrow
& though you're down & out to your rival
Know your faith is linked to your survival
Be the revival
Just be the revival
Lift your eyes & see thru the sorrow
Muster all the strength you can borrow
And live for tomorrow
& though you're down & out to your rival
Know your faith is linked to your survival
Be the revival
Just be the revival
Be the revival
Be the revival
Just be the revival

In this life
We all learn faith
In different ways
To make it thru
To make it thru

Tail Lights in a Boom Town
