400 Years

The Frogs

400 years, 400 years, 400 years
Of the same philosophy
400 years, 400 years, 400 years
And the people, they still can't seeWhy do they fight against
The youth of today?
And without youths, you would be gone
All gone astrayCome on, let's make a move
Make a move, make a move
Now is the time
The time has comeFools don't see, fools don't see, fools don't see
But I know the weak keep strong
So, come with me to a land of liberty
Oh darlin', where we can live a life and be free400 years, 400 years, 400 years
Of the same, the same philosophy
400 years, 400 years, 400 years
And the people still can't seeCome with me, you nothing, you proud
You got to be free
Stop sitting down on your pride
Just can't hide400 years, 400 years, 400 years
Same, same philosophyo
400 years, 400 years, 400 years
What black people authorize close their eyes
Come to reality, you got the ability
Just can't see
400 years, 400 years, 400 years
