

# Now Is Mine

## K's Choice

My past, my future, my disease  
Perhaps collapse  
To make me seize a moment  
Just a breeze Grateful, humble, I allow  
These words to be  
The past somehow  
I wonder  
Am I here now?  
Am I here now?  
I feel, hear, see and  
It confuses me I am wrong  
I am here  
Now is mine  
I'll take it  
All around the world  
Take my future  
Past, it's fine  
But now is mine My precious present  
Will you bloom?  
To make this fourth  
Dimension womb  
Stop asking  
Stop asking why All I know is all I am  
Will never fully understand  
My breathing  
I try, how I try to feel, hear  
See and it confuses me I am wrong  
I am here  
Now is mine  
I'll take it all  
Around the world  
Take my future  
Past, it's fine  
But now is mine
