

Dug That

White Kaps

Taking life slow and taking it easy
You wanna be like me but you can't be sleazy
 Life goes quick and life goes fast
 Everybody wants a good thing to last
 Take care of yourself and try to act old
You've got no balls and you've never been bold
 Why - People are weird
 Why - Ones that you feared
 Why - Who have you cursed
 Why - Who dies first
I've already been there and I've already dug that
I've already been there and I've already dug that
I've already been there and I've already dug that
I've already been there and I've already dug that
I've already been there and I've already dug that
 Been there - Oh yes I've seen this and I've seen that
 Been there - Oh yes I've dug this and I've dug that
 Been there - Oh yes I've fought this and I've fought that
 Been there - Oh yes I've drank this and I've drank that
 Been there - Oh yes I've fucked this and I've fucked that
 Been there - Oh yes I've drank this and I've drank that
 And I've been there before
 It's time to say bye cuz it's time to go
 You wasted your life you didn't star in your show
 You took no risk and you've took no chance
 We've played the music but you didn't dance
 Don't take your life so slow because your life goes by fast
