

# Holding My Hand

## Koe Wetzel and the Konvikts

She's got a smile, like I've never seen.  
In the eyes of an angel, I see something in me.  
She loves the stars, and this country sky.  
and the sound of my guitar, is her lullaby.

But her hearts been broken more times than most,  
and its kinda hard for me to understand.  
But all that I see these past few weeks,  
she could have any other man, but she's holding my hand.

yeah, she's holding my hand (ayy)

she loves the way, my brown eyes stare,  
she holds my heart, like its going somewhere  
shes the only one that takes me for me,  
and the one that I want, when I get lonely.

cuz her hearts been broken more times than most,  
and its kinda hard for me to understand,  
but all that i see these past few weeks,  
she could have any other man, but shes holding my hand.

cuz her hearts been broken more times than most,  
and its kinda hard for me to understand.  
but all that i can see these past few weeks,  
she could have any other man, but shes holding my hand  
holding my hand, holding my hand, yeah shes holding my hand.
