

Oxygen

Hadouken!

Cried out and suffer your elixir in my veins

Floating together when your fume goes to my brain You are oxygen, you are oxygen, you are oxygen

You are oxygen, you are oxygen, you are oxygen-gen-gen-gen Cried out and suffer your elixir in my veins

Floating together when your fume goes to my brain You are oxygen, you are oxygen, you are oxygen

You are oxygen, you are oxygen, you are oxygen-gen-gen-gen Cried out and suffer your elixir in my veins

Floating together when your fume goes to my brain You are oxygen, you are oxygen, you are oxygen

You are oxygen, you are oxygen, you are oxygen-gen-gen-gen
