mind your own business

The Slackers

I always have the same fight with you
It doesn't change no matter what we do
Like, 'Who is he? Where was she? Who were they with
And why I don't care about it?'
Why don't you mind your own business?
Why don't you mind your own business?
Why don't you mind your own business?
Why don't you mind your own business and leave mine alone?
Gossip buzzes around your head like bees in a hive
Sometimes I think that's how you stay alive
Don't you hate it when those little facts interrupt?
So much more fun just to make it all up
Why don't you mind your own business?
Why don't you mind your own business?
Why don't you mind your own business?
Why don't you mind your own business and leave mine alone?

Look, here's my point
Get a life
A source gave me the scoop on you
Can you confirm or deny that it's true?
I heard that someone cut you down to size
Somehow, you know, I'm not surprised
Why don't you mind your own business?
Why don't you mind your own business?
Why don't you mind your own business?
Why don't you mind your own business?
Why don't you mind your own business
Why don't you mind your own business
Why don't you mind your own business
Mind your own business
Mind your own business and leave mine alone
