

# Idaho

## Feeder

I've got nowhere to hide  
When her ghost lives inside my body  
I feel the weight from within  
As the lids of my eyes get heavy Yeah, are you feeling it too?  
Yeah, I hope you're feeling it too Here I go, let them know I'm heading back to Idaho  
All the way to USA,  
I've thought about you every single second since I got home  
I may find a better view, find a better... view  
Idaho  
There's someone I left behind  
She found a place in my mind that's steady  
A constant wave of regret  
I need a change in my life, I'm ready Yeah, are you feeling it too?  
Yeah, I hope you're feeling it too Here I go, let them know I'm heading back to Idaho  
All the way to USA,  
I've thought about you every single second since I got home  
I may find a better view, find a better... Yeah, are you feeling it too?  
Yeah, I hope you're feeling it too Here I go, let them know I'm heading back to Idaho  
All the way to USA,  
I've thought about you every single second since I got home  
I may find a better view, find a better...  
Here I go, let them know I'm heading back to Idaho  
All the way to USA,  
I've thought about you every single second since I got home  
I may find a better view, find a better... view  
Idaho
