

# What Kind Of Love (ft. Amanda Somerville)

## Avantasia

A dream of a dwelling inside  
Alone we come and alone we go  
And who am I to know what I feel  
Sympathy that's tearing me apart  
Attraction of the distance to a heart or affinity  
What if love will leave your heart an open sore  
And I can't reveal what even I don't know  
The love you feel you waste away on me  
What kind of love would let us bleed away  
No kind of love would make us bleed away  
If only you could be  
The one to take a look inside  
I feel so incomplete  
A broken man in need of mother love  
I'm suffering in silence  
And no one wants to see  
And only god is watching as I bleed  
The star above - my matching piece  
Oh this will leave your heart an open sore  
And I can't reveal what even I don't know  
The love you feel you waste away on me  
What kind of love would let us bleed away  
No kind of love would make us bleed away
