Rec & Play

I'm from Barcelona

Feeling like a tape recorder
Stuck between rewind and forward
Always going two directions

One's ahead and the second is backwardsPlease press my rec & play

'Cause I want to save this moment

This will be my favorite song

This will be my favorite album

This will be my favorite albumI will throw my tapes away 'cause

This will be the one worth saving

Push the faders, break the meters

Rolling, rolling, time to get goingPlease press my rec & play

'Cause I want to save this moment

This will be my favorite song

This will be my favorite albumPlease press my rec & play

'Cause I want to save this moment

This will be my favorite song

This will be my favorite albumWell, this will be my favorite album Well, this will be my favorite albumMy rec & play

My favorite song My rec & play My favorite song
