

Our Time

Imperial Teen

Yeah, we are dancing tonight
Under a strawberry light
And it's our time
All the girls are dressed in leather
And the boys are wearing feathers
It's our time

And we will blow until it glows
It's on fire

And we are fighting the fight
A libertarian plight
And it's our time
Heavy metal in the sound
And there's still an underground
And it's our time

And we will blow until it glows
We're on fire

We're below the undertow
We're for hire

And you can wear what you want
You can say what you want
'Cause it's our time
And all the little girls sway
It's a holy holiday
And it's our time

We are dancing tonight
Under a strawberry light
And it's our time
All the girls are wearing feathers
And the boys are dressed in leather
It's our time

Undertow
We're below

We're for hire

We will blow until it glows
It's on fire

Hey, jump the line
This is our time
To look behind
We are in time
