

# Lowkey

Rochelle Jordan

I've known you five years, going on six  
Feelings that we had, ways dismissed  
so im just just tapped into it for the hell of it,  
But we found a way to resist  
Cause it can't get personal and flip  
i aint deal with all that shit?  
So you just keep it down on the low,  
And keep it at friednship level that's it!Now I'm surprised what on my mind  
You should bring thoughts to me one more time  
And maybe we'll be caught up in a moment  
And came out the closet you and I!  
We've been friends for some time  
In the back of the mind there's always some doubt  
But we're alone in here and the music's blurring,  
Are you hearing what I'm saying?  
I don't really want to compromise our  
Our friendship, but I got a thing for you, yeah  
And I don't really want to cross the line, but  
I'm kinda really hoping that we doLowkey,  
Baby, keep it in the low, but to keep it real  
Lowkey,  
I've been thinking about showing you how I feel  
Lowkey,  
Baby, don't resist us our right to be  
Lowkey, if we find i really think we should go with itwe can keep it low but keep it real  
lowkey  
ive been thinking bout showing how i feel  
Lowkey  
baby don't resist us our right to be  
Lowkey if we find it i really think we should go with it  
Playing off on this creeping,  
Got me secretly wanting more you  
And I know you feel, too!  
So, tell me about all this hiding  
Forget what we said when we're fighting...It's been a long time coming...  
Cause you know that I don't wanna  
Pre-I don't really want to compromise our  
Our friendship, but I got a thing for you, yeah  
I don't really want to cross the line, but

I'm kinda really hoping that we do  
Lowkey,Baby, keep it in the low, but to keep it real  
Lowkey,  
I've been thinking about showing you how I feel  
Lowkey,  
Baby, don't resist us our right to be  
Lowkey, if we find... We should go with it  
I really think we should go with it  
I really think we should go with it  
I really think we should go with it  
Lowkey, lowkey, lowkey
