

Lover's Prayer

Joe

For love, life and eternity

This is my prayer I pray that our love is more than enough to weather the storm

I pray that you're strong the nights that I'm gone and you're home alone

I pray you'll forgive whatever I did that brought you the tears

I pray here right now as I make this vow, we last through the years (Lover's prayer)

When I get down on my knees at night

(Lover's prayer)

I pray God we gonna be alright (Lover's prayer)

With my head down and my hands up high

(Lover's prayer)

How I hope that He will answer my

(Lover's prayer) That's why I pray, that's why I pray, that's why I pray

That's why I pray, that's why I pray, that's why I pray

That's why I pray, that's why I pray, that's why I pray

That's why I pray, that's why I pray, that's why I pray I pray that the sun continues to shine with all that you do

No matter the bad, no matter how low, you'll make it through

I pray that I'm there, whatever you want, whatever you need

I pray that your heart carries apart, apart of me, yeah (Lover's prayer)

When I get down on my knees at night

(Lover's prayer)

I pray God we gonna be alright (Lover's prayer)

With my head down and my hands up high

(Lover's prayer)

How I hope that He will answer my

(Lover's prayer) That's why I pray, that's why I pray, that's why I pray

That's why I pray, that's why I pray, that's why I pray

That's why I pray, that's why I pray, that's why I pray

That's why I pray, that's why I pray, that's why I pray I pray that your smile would light up my life, won't ever
fade

I pray that the trust we share between us won't ever break

I pray that your hopes all of your dreams you will exceed

My final prayer you'll take this ring and you will bear my seed (Lover's prayer)

When I get down on my knees at night

(Lover's prayer)

I pray God we gonna be alright (Lover's prayer)

With my head down and my hands up high

(Lover's prayer)

How I hope that He will answer my

(Lover's prayer) That's why I pray, that's why I pray, that's why I pray

That's why I pray, that's why I pray, that's why I pray
That's why I pray, that's why I pray, that's why I pray
That's why I pray, that's why I pray, that's why I pray(Lover's prayer)
When I get down on my knees at night
(Lover's prayer)
I pray God we gonna be alright(Lover's prayer)
With my head down and my hands up high
(Lover's prayer)
How I hope that He will answer my
(Lover's prayer)That's why I pray, that's why I pray, that's why I pray
That's why I pray, that's why I pray, that's why I pray
That's why I pray, that's why I pray, that's why I pray
That's why I pray, that's why I pray, that's why I pray(Lover's prayer)
When I get down on my knees at night
(Lover's prayer)
I pray God we gonna be alright(Lover's prayer)
With my head down and my hands up high
(Lover's prayer)
How I hope that He will answer my
(Lover's prayer)That's why I pray, that's why I pray, that's why I pray
