Rum & Roses

Ryan Beaver

Sometimes you just wanna feel it burn on your lips
Even though you know how itâ€™s gonna taste tomorrow
Sometimes you just wanna hold something beautiful
Even though it makes your hands bleed and leaves your heart so hollow

Chorus
Rum and roses poison and thorns
We wonâ€™t regret em until the morning
Ride the buzz til the suns up then weâ€™ll say that itâ€™s over
Til the next time I show up with rum and roses

Some nights you just wanna feel something comfortable
And the devil that you know is better than the devil you donâ€™t
Some nights you know youâ€™re gonna hurt anyway
You give in to your weakness for a little something stronger

Repeat chorus

What makes the moon look redder
What makes the world look better
Some things just go together like we go together like

Repeat chorus
