

# Us Against the World

## Westlife

Us against the world  
Against the world  
Us against the world  
Against the world You and I, were been at it so long  
But still got the strongest fire  
You and I, we still know how to talk  
Know how to walk that wire Sometimes I feel like the world is against me  
The sound of your voice, baby, that's what saves me  
When we're together I feel so invincible Cause it's us against the world, you and me against them all  
If you're listening to these words know that we are standing tall  
I don't ever see the day that I won't catch you when you fall  
Cause it's us against the world tonight Us against the world  
Against the world There'll be days well be on different sides  
But that doesn't last too long  
We find ways to get it on track  
And know how to turn back on Sometimes I feel I can't keep it together  
Then you hold me close and you make it better  
When I'm with you I can feel so unbreakable Cause it's us against the world, you and me against them all  
If you're listening to these words know that we are standing tall  
I don't ever see the day that I won't catch you when you fall  
Cause it's us against the world tonight Were not gonna break cause we both still believe  
We know what we've got and we've got what we need  
Alright, were doing something right Cause it's us against the world, you and me against them all  
If you're listening to these words know that we are standing tall  
I don't ever see the day that I won't catch you when you fall Us against the world, you and me against them all  
If you're listening to these words know that we are standing tall  
I don't ever see the day that I won't catch you when you fall  
Us against the world, yeah, it's us against the world, baby  
Us against the world tonight Us against the world  
Against the world  
Us against the world
