

# Cut Me Out (feat. Turin Brakes)

## Flux Pavilion

Just Like An Animal  
Picking up The Pieces And You Drop'em All  
Keeping it visible  
A Living Liberty Need To Hold It All  
I've been reflecting on the modern life  
Hold up  
Hold up  
My own reflection With A Pocket Knife Hold up  
Hold up  
Hold up  
Rockets and hurricanes  
Coffee and overcaine  
Anything That Gets you high  
Or Get you down  
Pictures of acid rain  
Never the same again  
You gotta learn you'll never win it all Ooooooh, my There Is Nothing Left You Gave it all  
Ooooooh, my  
And nothing is unrepairable  
Ooooooh, my  
You Got to fill Before You Fall  
You cut Me up  
You cut me of  
You cut me out  
You cut me up  
You cut me of  
You cut me out  
You cut me up  
You cut me of  
You cut me out  
What if you lost yourself  
Would you try find your way through someone else?  
I know you feel alone  
Reflecting on your falses  
Like a mirror ball  
I've been reflecting on the modern life  
Hold up  
Hold up  
I've been away for such a long time

Hold up  
Hold up  
Hold up  
Ooooooh, my  
Theres nothing left  
You gave it all  
Ooooooh, my  
And nothing is unrepairable  
Ooooooh, my  
You Got to  
Fill Before You fall  
You cut me of  
You cut me up  
You cut me out  
You cut me of  
You cut me up  
You cut me out  
Ooooooh, my  
Theres nothing left you gave it all  
Ooooooh, my  
And nothing is unrepairable  
Ooooooh, my You got to fill before you fall  
You cut me of You cut me up You cut me out
