

# About the Moon

[Rilo Kiley](#)

the moonlight won't hide  
the moonlight won't hide  
the moonlight won't hide  
these cryin' eyes  
these cryin' eyes the highways are free and clear  
the highways are free and clear  
the highways are free and clear  
they won't take me away from here  
they wont take me away from here. my folks are long gone  
my folks are long gone  
my folks are long gone  
and my mind is sure to go  
and my mind is sure to go ( sure to go )  
and my mind is sure to go ( sure to go )  
and my mind is sure to go
