

Brite Boy

[Alex G](#)

Brite boy I can help you if you let me take your hand
Bring you right to promise land, bring you right to promise
Brite boy I can help you if you let me be your wife
Love you so for all my life, love you so for all my
Waiting by the water you return with eyes cast down
Brite boy what has made you frown brite boy what has made you
Waiting by the water sun is setting on the sea
Brite boy please return to me Brite boy please return to me
