The Energy (Single EQ Edit)

Audiovent

Every now and then I think about you
And it makes me, it breaks me
Out of you and into me, I'll make itSo take a look at what you do to my head
When you're leaving, I'm breathing
Out of me and into you, I feel sick, I feel sickNow that you're leaving
It complicates our lives
But I am the reason
That I will stay aliveWe are the energy
We are the same as you
Take everything you needWe are the answer to
The broken, breaking through
Take everything from meEvery now and then I dream about you
I've lost the feeling, it's dead skin
I will never be dependent againAnd every now and then I think about you
It's bringing me closer to closure
Every now and then I know it's over, it's overNow that you're leaving
It complicates our lives
But I am the reason
That I will stay aliveWe are the energy
We are the same as you
Take everything you needWe are the answer to
The broken, breaking through
Take everything from meWe are the energy
We are the same as you
Take everything you needWe are the answer to
The broken, breaking through
Take everything from me'Cause I'm not dying
No I'm not dying, today
