Dead Man's Hand On You

Children Of Bodom

Walked a long long way down there
Just to see, feel your glare
I wanna sleep just drift away
Mother Kali, just tuck me in, take me inTake me out
Heaven, hell and the underworld
Give me the white, the red and black
It's all I ask, that's what I needIf you let me love and be true blue
I'll be more than just a dead man's hand on you
Tell me lies won't be denied
Mother Kali, will you be my bride?I'd paint your roses black and show you heaven
Just to see your skin for one more second
It's all I want that's what I do
Love me one more time and I'll let you kill me too
