On This Day

David Pomeranz

Here we stand today
Like we always dreamed
Starting out our live together
Night is in your eyes
Love is in our hearts
I can't believe you really mine forever(Bridge)
Been rehearsing for this moment in all my life
So don't act surprised
If the feeling starts to carry me away(Chorus)
On this day
I promise forever
On this day
I surrendered my heart
Here I stand take my hand
And I will honor every word that i say
On this dayNot so long ago
This heart is just a fill of golden lonely space
Without you
Now everything's all right
Now everything's refill
And the story of my life
Is all about YOUSo if you feel the cold winds
blowing through your nights
I will shelter you and forever
here that tears your fear away(Chorus)
On this day
I promise forever
On this day
I surrendered my heart
Here I stand take my hand
And I will honor every word that i say
On this day(Bridge)
Been rehearsing for this moment in all my life
So don't act surprised
If the feeling starts to carry me away(Chorus)
On this day
I promise forever
On this day
I surrendered my heart

Here I stand take my hand
And I will honor every word that i say
On this day
