

# Landing In Love

[Collin Raye](#)

Can you feel that rush, makes the whole world hush  
Makes your flesh go flush, you break a sweat  
Is your soul on fire with your hearts desire  
Out there on the wire without a net  
Does it take your breath are you scared to death?  
With one kiss we'll be risking it all  
If we dance this dance, if we take this chance  
We'll be landing in love when we fall  
It's an act of God, it's against all odds  
And we hold lightening rods up in the sky  
It's that leap of faith, we all have to take  
But hearts don't have to break when they can fly  
Does it take your breath, are you scared to death?  
With one kiss we'll be risking it all  
If we dance this dance, if we take this chance  
We'll be landing in love when we fall  
If we dance this dance, if we take this chance  
We'll be landing in love  
One more kiss, one more touch  
We'll be landing in love when we fall
