Diamonds & Pearls

Neville Nash

You got Diamonds, you got Pearls
And you got yourself together in this world
You got Diamonds, you got Pearls
When you where on the breadline
Now you're in the good times
Diamonds and Pearls

Everybody wanna know your name,
but they don't realize your little game
Everybody from a way back when
Talk to you but now you just pretend
The way you live now and the way you used to be
You keep me hanging on but you won't talk to me...

oooooh

You got Diamonds, you got Pearls
And you got yourself together in this world
You got Diamonds, you got Pearls
When you where on the breadline
Now you're in the good times
Diamonds and Pearls

You keep mixing with your bourgeoisie friends
You thinkin that the good times will never end...

Everybody say they like your style
But get your head together for a while...

The way you live now and the way you used to be
You keep me hanging on but you won't talk to me....

Whyyyyyy

You got Diamonds, you got Pearls
And you got yourself together in this world
You got Diamonds, you got Pearls
When you where on the breadline
Now you're in the good times

Diamonds and Pearls

So come on girl dont walk away dont leave me here dont take my world
Come on girl you can't be satisfied with your Diamonds and your Pearls

oooooooohhh

You got Diamonds, you got Pearls
And you got yourself together in this world....
